Let Me Introduce Myself!

I'm currently a bootcamp student aspiring to become a front end web developer. I was briefly introduced to coding as an elective in my junior year of high school and realized my passion for it. At the end of this boot camp, I hope to learn hands-on skills that can help me venture onto related job fields that will challenge me in the real world.

I Can Do All Things Through Christ Who Strengthens Me!

Philippians 4:13

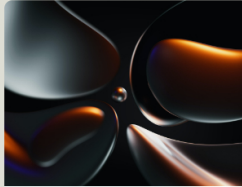

Projects

Horiseon Code Refractor Project
This project included being provided with starter code and refractoring the code to make the website more functional.
